

Across-site heterogeneity of genetic and environmental variances in the genetic evaluation of *Eucalyptus globulus* trials for height growth

João Costa e Silva*, Gregory W. Dutkowski and Nuno M.G. Borralho
Annals of Forest Science 62, 183–191 (2005)

Formula (4), page 186, was published with a printing error. The corrected formula (4) is given as follows:

$$y_{ij(adj.)} = (y_{ij} - \bar{y}_i) \frac{\hat{\sigma}_{pop.}}{\hat{\sigma}_i} + \bar{y}_i$$

Reference [3], page 191, was published with a printing error. The corrected reference [3] is given as follows:

Costa e Silva J., Wellendorf H., Borralho N.M.G., Prediction of breeding values and expected genetic gains in diameter growth, wood density and spiral grain from parental selection in *Picea abies* (L.) Karst, *Silvae Genet.* 49 (2000) 102-109.
